May Half Term Holiday Club - Curiosity Challenge

Our May half term week is brimming with action packed adventures and exciting activities that will spark your child's curiosity and ignite their imagination. We will be challenging them to think, create and explore! We start the week off with an inspiring science workshop, delivered by the award-winning company 'Sublime Science' who featured on Dragons Den. Throughout the week we have a variety of stimulating and challenging activities, including STEM challenges that encourage creativity, problem solving and teamwork. The children will also take part in two exciting puzzle-based adventures. First, they will need to help Horrid Henry get his concert tickets by solving challenges, cracking codes and outsmarting obstacles. Later in the week they will join Ben, the zoo keeper, to reveal the secret message hidden in one of the animal enclosures!

Adventures, curiosity, and challenges await!
